New York, March 17.—Although the stock at no time to-day was subjected to severe pressure and trading was slow, prices once more went lower. Abandonment of the plan for segregation of the Harriman properties, depression of the European markets, foreign selling here, engagement of \$2,000,000 more gold for export to France and continuance of high money rates all were unfavorable.

Wide fluctuations of the Harriman shares were forecast by what occurred in the London market before the opening here. Union Pacific fell nearly two points and Southern Pacific advanced about as much, the latter stock rising on the belief that the company would fare better with a new dissolution plan than under the abandoned one. London selling here, estimated at 15,000 shares, was one of the principal causes of the market's weakness. The effect of the unexpectedly good bank statement of last week was partly offset by the further engagement of gold for export. Liquidation of New Haven continued, the price falling to 1141-2, a loss of 41-4 and a net low record. Goodrich, 29, also a new price for the decline, and a drop of 3 points. The petroleum shares, Central Leather, Woolworth, Rumely and some other specialties were weak. The bond market was depressed. Total sales, par value, \$1,061,000.

United States bonds were unchanged on call.

New Orleans, March 17.—Cold weather over the South had little effect on the cotton market on the opening session of the week, although it was generally considered to be an unfavorable feature of importance. On the opening the tone was steady and prices were 124 points up. This was the highest of the day. At no time were built aggressive. Shorts were nervous in the morning session, but gained contidence later owing to the absence of built attacks. The forceast of fair and warmer weather for the entire belt also helped the bear side, especially as it was followed by reports from the belt to the effect that farm work was again under way as the result of dry weather. In the afternion the market was forced 527 noints under Saturday's last quotations. The close was steady at a net decline of 527 noints. The lack of active trading was generally ascribed to the fact that this will be a short week, all markets closing Thursday night. Moreover, the Census Bureau will issue its final report on ginning Thursday morning. Both sides have adopted a waiting attitude penutng this report.

Attempt Apparently Made to Burn Planing Mill-St. Patrick's Day Observed.

[Special to The Times-Dispatch.] Alexandria, Va., March 17 .- The police are probing into what is believed to have been an attempt to burn the planing mill of Aitcheson Brothers on the river front yesterday afternoon.

When the firemen arrived a piece of waste filled with oil had started a fire in the rear part of the establishment from the outside. Other mysterious fires in the city have led the police to believe that there is a firebug in
